Dear Linking Teachers,

As a formal partner on 3FF's School Linking Programme, you are going beyond your immediate duties at school and committing to providing important spaces for the young people on this year's programme. Spaces in which they can explore and engage with themes of identity and diversity in a safe and positive environment.

We recognise, in a difficult climate like the one we find ourselves in post the events of last week in Paris and further, that tensions and fears amongst our communities can rise. At such times, the work we are engaged in to build a connected and cohesive society is more important than ever.

Given this, I wanted to reach out to you, offering our continued support and commitment to follow through the work you have embarked on this year as Link leaders for your school. Please do contact your 3FF contact, Sarah Koster, if you need any further assistance.

Kindest regards,

Phil Champain, Director 3FF
